

Welcome fellow cattlemen to the Denbie Ranch and Guests Bull Sale. Thank you to all of our bidders and buyers in our previous sales. We are raising these 2yr old bulls in a very no nonsense program. They are grown out slowly for your benefit rather than being pushed hard to show big performance numbers. They are born on pasture without a bunch of babysitting and they will work for you regardless of your system. We are pleased to offer 4 bulls from the C2 Charolais program in La Riviere Mb. We purchased these bulls to work in our commercial herd last year and they did a fine job. They have been developed together with our home raised bulls since being pulled from the cow herd in early October. Our cattle are on a full vaccination and mineral program and we welcome any questions regarding the management of our herd. This winter the bulls have been fed a TMR silage and pellet ration. As always, **we are offering to take the bulls back home and feed them until April 1st** at which time they must be delivered before we start calving. This is at no cost to the buyer. After April 1st we will charge \$4/day for keeping the bulls. All bulls returning to our yard do so at the risk of the new owner and should be insured. **The bulls have all passed a semen test** but it is recommended that the new owner retest the bulls if they are not going to work for a few months. Since the sale is likely to be held exclusively online due to Covid restrictions we encourage all prospective buyers to come and view the bulls at the farm any time before the sale.

See you online **February 27.**

Sincerely, Hans

(In addition to Denbie sale terms & conditions)

1. We will keep your bull free of charge until April 1
 - Bulls returning to our farm must be insured (insurance will be available at the sale)
 - Delivery within 500 kms will be free and at our convenience ASAP after April 1
 - After April 1 we will charge a fee to keep the bulls
2. Terms of sale are cash or cheque payable on sale day unless satisfactory credit arrangements have been made prior to the sale.
3. Each bull will carry papers issued by the Canadian Charolais Association. Papers will be transferred to the buyer after the sale.
4. Delivery will be available at the sellers convenience after the sale for those buyers not wanting to send the bulls back to our farm.
5. All the bulls will have a satisfactory semen test within 30 days prior to the sale
6. The seller retains the right to collect semen on any bull sold in the sale at a future date for in herd use only. This would be at the sellers expense and the bull owners convenience.

Customer Testimonial:

"I first connected with Hans and saw pictures of their bulls on Twitter. I liked the way he was feeding and decided to go to the sale and look at the bulls. They were exactly as he had described. Hans was around the pens and happy to visit about the bulls. Lots of depth and muscle to them and good disposition. The bulls were not over fed and held condition throughout breeding season and winter with great feet. Delivery was great and the whole experience was super. We will definitely be repeat buyers.

Ryan & Katharine Lowenberger, Corning Sk.

"As a first time purchaser in Hans' program I have been very impressed with the bulls we purchased. They are moderate framed, quiet and held condition throughout the breeding season. More importantly the level of customer service and professionalism has been second to none in the business. "

Justin Hozack, Marwayne Ab
